DETAILED ACTION

Election/Restrictions

1. Newly submitted claims 22 and 23 are directed to an invention that is independent or distinct from the invention originally claimed for the following reasons: the originally claimed involves with communication between a calling subscriber and a called subscriber while the new added claims 22 and 23 involves with an inquiry request for a second communication type.

Since applicant has received an action on the merits for the originally presented invention, this invention has been constructively elected by original presentation for prosecution on the merits. Accordingly, claims 22 and 23 are withdrawn from consideration as being directed to a non-elected invention. See 37 CFR 1.142(b) and MPEP § 821.03.

Response to Amendment

2. Applicant's amendment filed on Nov. 24, 2004 has been entered. Claims 1, 2, 15 and 16 have been amended. No claims have been canceled. Claims 21-24 have been added. Claims 1-24 are still pending in this application, with claims 3-14, 17-20, 22 and 23 are withdrawn from consideration and claims 1, 2, 15, 16, 21 and 24 being independent.

Claim Rejections - 35 USC § 102

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

Art Unit: 2642

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

4. Claims 1, 2, 15, 16, 21 and 24 are rejected under 35 U.S.C. 102(e) as being anticipated by Morton (U.S. Patent Publication Application No. 2002/0126679).

Regarding claims 1, 15, 21 and 24, Morton teaches a communication network and a communication service information providing method comprising the steps of:

receiving a call used to select one of plural communication services, which is transmitted from a calling subscriber to a called subscriber that subscribes the plurality of communication services (page 1, lines 1-5 of [0005]); and

providing information related to another communication service subscribed to by the called subscriber with respect to the calling subscriber (page 1, lines 5-8 of [0005]).

Regarding claims 2 and 16, Morton teaches a communication network and a communication service information providing method comprising the steps of:

receiving a call used to select one of plural communication services, which is transmitted from a calling subscriber to a called subscriber that subscribes the plurality of communication services (page 1, lines 1-5 of [0005]);

providing information related to another communication service subscribed to by the called subscriber with respect to the calling subscriber (page 1, lines 5-8 of [0005]); and

Art Unit: 2642

when the calling subscriber selects one of other communication services from the provided information, trying to connect to the called subscriber by way of the selected another communication service (page 1, lines 9-12 of [0005]).

Response to Arguments

5. Applicant's arguments with respect to claims 1, 2, 15 and 16 have been considered but are moot in view of the new ground(s) of rejection.
